

A pixelated, black and white graphic of the letters 'LW'. The letters are rendered in a bold, blocky font with a high level of contrast. The 'L' is on the left, and the 'W' is on the right. The image has a low-resolution, dithered appearance, similar to a low-quality photocopy or a digital image with a small number of bits per pixel. The background is white, and the letters are composed of black and gray pixels.

A 16x16 pixelated grayscale image of the number 5. The image is composed of a grid of pixels with varying shades of gray, from white to black. The number 5 is formed by a central vertical stroke and a horizontal stroke that intersects it. The pixels are arranged in a way that creates a blocky, digital appearance. The background is white, and the number itself is rendered in various shades of gray, with the darkest pixels forming the main body of the number.
